PRESS RELEASE

ALL RESULTS NOW AVAILABLE ONLINE

We are proud to announce that all the final results of the Green & Social StartUps Erasmus+ Project are now completed and publicly available on our official website. These resources aim to support the integration of green and social entrepreneurship into school education and are freely accessible to educators, students, and stakeholders across Europe.

Needs Analysis Report

Based on extensive research involving teachers, students, and stakeholders from six partner countries, this report identifies key gaps and opportunities in promoting entrepreneurship in schools. It offers valuable insights to guide future educational initiatives.

Teachers Training Programme

This comprehensive training tool equips educators with the knowledge and strategies to teach green and social entrepreneurship, alongside innovative classroom methodologies. It is available in six languages: Polish, Greek, Dutch, Serbian, Italian, and Turkish.

“Virtual Entrepreneurship for a Sustainable World” Curriculum

A dynamic educational resource combining theory and practice. It includes four modules—Fundamentals of Entrepreneurship, Entrepreneurship for a Greener Planet, Entrepreneurship for Social Change, and Inclusive Entrepreneurship—along with simulation activities where students create their own virtual green/social business. It is available in six languages: Polish, Greek, Dutch, Serbian, Italian, and Turkish.

Inspiring Stories Collection

A curated video series featuring real-life entrepreneurs implementing green and social business models. These stories aim to inspire and motivate students by showing how entrepreneurship can be a force for positive change. Watch them now on our YouTube channel [@GreenandSocialStartUps](#).

 Explore all results and download the materials on our website to bring sustainability and entrepreneurship into your classroom!

With these results, the Green & Social StartUps project leaves a lasting legacy, offering practical tools and inspiring content to foster entrepreneurial thinking and sustainability in education. We invite teachers, schools, and education professionals to explore, use, and share these resources—because empowering the next generation starts in the classroom.
